

# SMALL WIND TURBINE CONSTRUCTION COURSE

3<sup>rd</sup> - 6<sup>th</sup> April, Glasgow

The course is hands-on, so those who come will get experience in all aspects of building a wind turbine from scratch. This includes carving blades from wood, hand winding copper coils, working with magnets, setting resins and welding a steel mounting.

The turbine design is open source and based on the Hugh Piggott wind turbine recipe book:  
[www.scoraigwind.co.uk](http://www.scoraigwind.co.uk)

This is an introductory course for anyone who is thinking of building their own turbine as well as some hands on fun for anyone who is interested in wind power.

The full cost of the course is £120, the price is to cover the cost of parts for the turbine and instructor's wages.
